When all else fails

Do you have a short-term bottleneck in the care of your children? Despite a good private network, this can happen. In this case, kids & co will help you find a replacement as quickly as possible. We will provide you with a qualified childminder from our emergency pool in an uncomplicated and reliable way.

Easy processing

Register once on our Notnanny & Nanny webapp. There you can quickly and easily release a nanny assignment 24 hours a day, 7 days a week. The payment of wages, insurance and social security contributions for the nanny are handled by kids & co, and you simply receive an invoice for the hours worked at the end of the month.
